Essay Portion (Essay: 350-500 words. Video: 2-5 minutes. Please submit with application.)

Cell Phone Distracted Driving, (defined as when motorists use a cell phone to call or text while behind the wheel), is currently playing a major role on Connecticut's highways. With technology advancing at an astronomical rate, cell phones have become the right hand of today's youth. The National Safety Council has estimated that 1 million people are chatting behind the wheel at any given moment. It is now fair to say that the combination of texting and driving is becoming as lethal as getting behind the wheel intoxicated.

Base your Arrive Alive submission on the following fictional scenario:

Carter Mario is asking for your help to prepare a presentation to your graduating class on the dangers of distracted driving that will make them not want to get behind the wheel with a cell phone. You may submit a written essay, a video, a graphic presentation, etc. Choose whatever format best supports your thoughts and ideas. Think outside the box. What you create could positively impact Connecticut's response to Distracted Driving, help to shape future legal actions, and most importantly save lives.

All submissions will be judged by Carter Mario and his staff of attorneys. The top 10 winners will each be awarded a \$1,000.00 scholarship check made out to the college they will be attending.
